

## Teddy and John's Adventure

It started off like any ordinary day until I got a letter. I ran to get the letter and sat at the smooth, wooden table. The whole family glared in wonder at me. I slowly opened it and it was bright golden with fancy writing. It said we had won a competition for a safari park.

1 day later

Me and my grandpa John decided to go. As soon as we got there it was amazing I saw a Giraffe poking it's head through the trees and a gigantic lizard in a pond. After we read the boring guide we finally got to see the fantastic creatures I saw lizards, giraffes, tigers, vultures, parrots and lions. Wait a second d...di...did the l..lio...lion just talk. Oh hello Rid I'm Tim, sorry I scared you didn't I said the jolly lion. I'm Teddy. We told some funny jokes and later on I met a crocodile that talks.
